**DETAILED ACTION**

1. This office action is in response to the applicants' amendment received on June 22, 2007.
2. Claims 1-29 are presented for examination.
3. The applicants have amended claims 1, 12, 25, and 29. The applicants have not cancelled nor have the applicants added any new claims.
4. Applicants' arguments with respect to claims 1-29 have been considered but are deemed to be moot in view of the new grounds or rejection.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claims 13-15 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: "wherein directing replication comprises sending a replica of the at least one application service object to the client device from the server."

The applicants have amended claims 1, 12, 25, and 29 to include similar claim limitations, however these claims have not been amended to include the above mentioned amended limitations.

***Claim Objections***

7. Claims 1, 12-15, 25, 28, and 29 are objected to because of the following informalities:

Claims 1, 12-15, 25, 28, and 29 are objected to because the claim limitations do not specifically recite any manipulation and/or a transformation in the claim limitations that would produce a tangible result. However, dependent claims 7, 8, and 11 include limitations that include the manipulation and/or a transformation in the limitations that would produce a tangible result. For instance, dependent claims 7 and 8 include a "query" in the limitations that details how the claim limitations are being manipulated.

The Examiner kindly requests that the applicants consider amending independent claims 1, 12-15, 25, 28, and 29 to include the limitations of dependent claims 7, 8, and 11. Including dependent claims 7, 8, and 11 into independent claim 1 12-15, 25, 28, and 29 would give independent claims 1, 12-15, 25, 28, and 29 tangible results.

The remaining claims are dependent claims. These claims are also objected to for being dependent on the above objected to independent claims.

Appropriate correction is required.
